

ARABIANSM
HORSE ASSOCIATION

EVERY ARABIAN HORSE HAS A *History*

AHA's new transfer procedure helps ensure your horse's story (and registration) aren't lost.

AHA's new Broken Chain of Ownership makes it possible to *reconnect a horse with its official registration even if the papers have been lost along the way.*

With DNA Identity testing, documented proof of ownership, and attempts to contact the last recorded owner to confirm there is no contractual or statutory claim to the horse, AHA can work to complete a transfer of Recorded Ownership for your Registered Horse and restore their rightful record.

*Help Preserve Your
Horse's Legacy!*
