I (we) certify that the embryo/oocyte below was sold prior to the actual birth of the foal. I (we) understand that the person or persons to whom this embryo/oocyte was sold will be treated in all respects as the recorded owner(s) at the time of foaling and will be shown as such on the foal's Certificate of Registration. The person or persons who have purchased the embryo/oocyte will also sign their name(s) in place of the recorded owner of the dam (donor mare) at the time of foaling on the foal's registration application.

Embryo/Oocyte Transfer

REG 121. REQUIREMENTS FOR EMBRYO/OOCYTE TRANSFER FOR PUREBRED ARABIANS

Embryos/oocytes collected in the United States or Mexico from a purebred Arabian mare may be transferred to a recipient mare, and foals resulting from embryo/oocyte transfer may be eligible for registration under REG 101., if the following requirements are met:

1. An Embryo/Oocyte Transfer Permit has been issued for the mare to be used as a donor for embryo/oocyte transfer. The permit will be effective until the recorded ownership of the donor mare changes or the donor mare is exported. A permit may be issued for a donor mare if the following requirements are met:
 - a. An application for an Embryo/Oocyte Transfer Permit, on a form provided by the AHA Registry, has been completed, signed by the recorded owner (or by the person whom the recorded owner has authorized in writing to sign the application), and filed with the AHA Registry;
 - b. The DNA type of the donor mare has been placed on permanent record with the AHA Registry; and
 - c. The required fee has been paid.
2. If an Embryo/Oocyte Transfer Permit has not been issued by the AHA Registry prior to the collection and implant of an embryo/oocyte, the recorded owner of the donor mare must pay a Late Permit Fee, and may be charged for any reasonable costs and expenses that the AHA Registry incurs in investigating the accuracy of the embryo/oocyte transfer, and may also be subject to the penalties provided by REG 138.
3. A valid Embryo Transfer Permit is required to purchase Embryo Transfer Certificates. An Embryo Transfer Certificate is required to register a purebred Arabian foal that is the result of embryo transfer. An Embryo Transfer Certificate may be issued only to the recorded owner of a mare at the time she was bred to the reported sire and will be issued only if the following requirements are met:
 - a. An Embryo Transfer Permit has been issued to the recorded owner of the mare and is effective at the time the Embryo Transfer Certificate is applied for;
 - b. An application for an Embryo Transfer Certificate, on the appropriate form provided by the AHA Registry, has been completed, with original signatures of the recorded owner of the donor mare at the time of breeding and the recorded owner of the sire at the time of breeding (or a properly signed and valid Transported/Stored Semen Service Certificate if applicable), and filed with the AHA Registry; and
 - c. The required fee has been paid;
4. A horse that is the result of an embryo/oocyte transfer may be eligible for registration if REG 101., and the following requirements are met:
 - a. An Embryo/Oocyte Transfer Permit for the donor mare has been issued; and
 - b. An Embryo/Oocyte Transfer Registration Application, on a form provided by the AHA Registry, has been completed, signed by the appropriate recorded owner(s) (or by the person whom the recorded owner has authorized in writing to sign the application), and filed with the AHA Registry;
 - c. A properly issued and valid Embryo Transfer Certificate accompanies the registration application.
5. The Certificate of Registration will be issued in the recorded ownership of the person(s) identified as the horse owner(s) on a properly completed Embryo Transfer Registration Application.
