This information has been compiled and endorsed by the AHA Equitation Committee in an effort to clarify many of the ambiguities that are currently present in the rules pertaining to the equitation divisions. It is not intended to be the final word on the subject, for any controversial statements with regard to equitation will almost certainly be met with disagreement. There may also be some areas that need addressing but were inadvertently omitted. Hopefully the benefits obtained by the use of this information will far outweigh any of its shortcomings. Items covered directly in either the US Equestrian (USEF) or the Equestrian Canada (EC) Rule Books, or the Arabian Horse Association (AHA) Handbook are not covered herein except for purposes of clarification.

Exhibitors should always know the rules of the pertinent association(s) and the classes in which they are competing. In the Arabian division, this means that the current USEF/EC Rule Books prevail, except where specifically modified by the current AHA Handbook. Copies of all rulebooks should be carried to horse shows, for easy reference. Any questions not readily answerable by consulting these rulebooks should be referred to this manual.

Exhibitors should be aware the written directions of the pattern take precedence over the drawing. The drawings are a guide. In addition, the patterns are written to call for either correct/incorrect diagonals and leads or right/left diagonals and leads. In the patterns written utilizing right/left diagonals and leads, the word "right" has no inference as to whether the diagonal/lead is correct.

Other questions should be addressed in writing and emailed to info@ArabianHorses.org or mailed to the Arabian Horse Association, 10805 E. Bethany Dr., Aurora, Colorado 80014-2605 — Attention Judges & Stewards Commissioner. Canadian Shows are governed by the current Equestrian Canada rules. These can be obtained by writing or calling Equestrian Canada, 308 Legget Dr., Ste 100, Ottawa ON K2K 1Y6 (613-287-1515).

Created and approved (BOD 1/91) Amended and approved (BOD 11/95)
Revised 06/13

USEF rules require posting of patterns one hour prior to the class; however, the Equitation Committee recommends that copies of patterns be posted 24 hours in advance of the class and that copies of patterns be made available to all exhibitors. Regional and National Class patterns must be posted 24 hours in advance of the scheduled class.
Do’s and Don’ts

Applies to Saddle Seat, Western Seat, Reining Seat, Western Horsemanship and Hunter Seat Classes

Be courteous at all times to fellow exhibitors, ring personnel, office workers, judges and the like. Sportsmanship is paramount in the field of equitation. Congratulate the winners. Your time will come some day and you would want the same courtesy extended to you. Also, be helpful to your fellow exhibitors. Point out, in a tactful manner, that their jod strap is undone or that their horse has slobbered on their chaps, etc.

Subtle verbal communication between rider and horse is encouraged in equitation classes; however, this communication should not be so loud as to be distracting to other exhibitors or ring personnel. A notable exception to this is when a rider is specifically addressing another rider, such as calling “rail.” However, excessive yelling of “rail, rail” is very distracting and undignified and should be discouraged. The only time “rail” is appropriate is when another rider is cutting in dangerously close and collision is imminent. It is inappropriate for a rider to come up behind a rider already on the rail and force them off the rail. Riders should always be positioned so that they can go around those ahead of them on the inside (not the rail side), and should be penalized at the judge’s discretion for not doing so.

Leave room in the lineup for the nervous horse or rider. In addition to being courteous and safety conscious, this will lessen the effect the other horse might have on your mount.

Show disciplined control of your mount, but never abuse it if it makes a mistake, either in the ring or after leaving the ring. The show arena and grounds are not proper places to “teach the horse a lesson.” Emotions run high and a lot is at stake. Because of this, most mistakes are due to rider error for which the horse should not be punished.

Do not wear anything or put anything on the horse or rider that jiggles, flaps, or waves. This includes loose hair or hair ribbons, flapping ties or fringe and unpinned numbers. All of these are very distracting to the judge, especially not being able to read a rider’s number. If a rider trims their number card, care should be taken to not reduce the size so that the judge can still easily read the number. Pinning numbers both top and bottom as well as from inside the shirt or jacket will make a smoother picture.

An exhibitor may wear protective headgear (ASTM/SEI or BSI/BS EN) and/or a protective safety vest, specifically designed for use in equestrian sport in any division or class without penalty from the judge. The federation recommends that the vest meet or surpass the current ASTM or BSI/BS EN standard or be certified by the Safety Equipment Institute.

Judges should appraise the ability and level of proficiency of the riders at the show before posting patterns. This can be accomplished by asking a member of show management. If
they don’t know the answer, they can easily find out by asking the steward to talk to the exhibitors. Both exhibitors and judges alike benefit from this little bit of advance planning. Those who want a challenge are given one, while those whose ability is not as advanced are given a test which they can perform, and the judge’s decision is made simpler by this consistency. Judges should be prepared with more than one pattern for any given class so as to compensate for differences in the ability of the riders, ring sizes, weather conditions and the like. Judges should also be aware that in Reining Seat equitation, the 13 and Under riders are expected to be able to perform the same tests as the 14-18 riders — one of the current NRHA patterns.

Riders should enter the arena ready to show, displaying confidence and presence. Show that you are a rider and not just a passenger. Poise and consistency, even under adverse conditions, are necessary. Perfect the performance of your horse(s) to best reflect your equitation abilities. A ground-covering smooth walk should not be so strong that its lateral movement creates too much body motion in the rider. A smooth, cadenced jog or trot will be much more attractive than a bone-jarring concussive gait. Likewise, a smooth flowing canter or lope will enhance a rider’s skill rather than the four-beat gait that shakes or vibrates the rider.

An exhibitor with a disability (other than hearing) will be provided reasonable accommodation upon submission of a written certification from a treating medical professional’s office certifying the disability and identifying the accommodation necessary for the exhibitor to compete safely. The medical certification must be provided to the competition Steward within a reasonable time prior to competing, who shall then attach a copy to the Steward report.
1. Get your patterns to show management so that they can be reviewed by the steward and posted at the proper time.
   a. AHA Medal Classes — At least one hour prior to an AHA medal class.
   b. Regional & National Equitation Classes — At least 24 hours prior to the first section of the eliminations.
   c. National Shows — Subsequent patterns are to be available immediately following the last working section of each phase.
   d. It is helpful to show management and exhibitors to receive patterns prior to the show so they may be copied for exhibitors and posted in a timely fashion.
2. Know the size of your arena, if you have a center ring box and where the entrance and exit gates are located before drawing your patterns.
3. Know which tests are allowed for each age group.
4. Make sure you are familiar with the AHA Equitation Manual and bring it to the show.
5. Review the Equitation section of the USEF or EC Rulebook, both in the General Equitation by seat and the Arabian Equitation Sections as well as the AHA Handbook. Bring Rulebooks, either electronic or hard copy, to the show.
6. Know the depth of the competition when choosing a pattern so that all riders can accomplish the pattern and the best riders will do it the best.
7. If the class is large, do not keep the riders in the lineup. It is mandatory at Regionals and Nationals to not have the lineup remain in the arena during patterns. This includes Saddle Seat, Hunter Seat not to jump, and Western Horsemanship classes.
8. Know your pattern and visualize it in the arena to know how it will play. Be aware of the position of the lineup compared to your pattern.
9. Prepare your card to reflect the proper percentages of rail/pattern work and be comfortable with the scoring system.
   • Saddleseat Equitation is 50 percent rail, 50 percent pattern
   • UPHA is 60 percent rail, 40 percent workout
   • Hunter/Jumper Seat equitation — not to jump — is 50 percent rail, 50 percent pattern
   • Western Horsemanship is 50 percent rail, 50 percent pattern
   • Reining Seat is 100 percent pattern
   • Showmanship is 100 percent pattern
10. Know if off-pattern is elimination or severe fault
    • Saddleseat Equitation is not elimination
    • UPHA is not elimination
    • Hunter/Jumper Seat equitation — not to jump — is not elimination

Refer to Current USEF/EC Rules
• Western Horsemanship is not elimination
• Reining Seat is elimination
• Showmanship is not elimination

11. No cones or markers are to be used in pattern work for Saddle Seat classes.
12. The arena gate must be closed during railwork and patterns.
13. Patterns are not permitted in walk/trot or walk/jog Equitation.
14. All Hunter Seat Equitation Not to Jump patterns must exit and enter the arena at a walk.
15. Reward good horsemanship and showmanship.
16. Judges are not to confer individually with exhibitors, questions and answers are to be repeated and announced over the PA system.

Show Committees Need to be Aware: In AHA Medal Classes in which the required minimum number of entries is achieved, the fact that a contestant is excused from the arena once judging has commenced, or goes off pattern during the pattern portion of the class, will not nullify an AHA Medal Class win if the remaining number of exhibitors is less than the minimum requirement. In AHA Medal classes, points are accumulated so rail work and patterns are required, regardless of the number of exhibitors.

Medal winners may ride in any medal class throughout the year. Once a rider wins an AHA medal in a certain discipline, they will be allowed to show again in a medal class of the same discipline. All medal classes must be held for one or more exhibitors.

For walk/trot, walk/jog equitation information, review corresponding equitation seat in this manual and current USEF/EC Rule Books, Arabian Division.
1. The Hunter Seat equitation rider should present a polished workmanlike appearance. Seat and hands must be light and supple conveying complete control should any emergency arise. Toes should be at an angle best suited to the rider’s conformation but not exaggerated. Heels should be down with the calf of the leg in contact with the horse and slightly behind the girth with the iron on the ball of the foot. The knees must not be pinched in tight with the calves and heels pushed away from the horse’s sides.

2. The rider’s body can be divided into four principal parts:
   a. The leg from the knee down
   b. The thigh and seat
   c. The upper body and head
   d. The arms and hands

A rider is considered balanced when his/her leg, seat, upper body, hands and arms coordinate correctly and are in equilibrium.

3. Establishing the rider’s position is the foundation. Beginning with the leg, the ball of the rider’s foot should be placed in the middle of the stirrup and the heel pushed down and in, just behind the girth. Establish contact with the horse with the calf of the leg and inner knee bone. Do not grip with the knee. Too much pressure on the knee acts like a pivot and causes the lower leg to swing which will cause the upper body to fall forward or backward. The toes should not be in front of the knee, nor should the lower leg be allowed to slip back so that the heel is behind the position of the back of the rider’s pelvis. In its correct position, the leg serves to support the body and stays just behind the girth where the leg serves to support the body and act as an aid to influence the horse. The leg also acts as an anchor for the entire body. The importance of leg position cannot be over stressed, since everything the legs do reflects in the rest of the body.

4. Moving upward to the seat and thighs. The thighs should lie flat with contact distributed evenly between the calf, inner knee bone and thigh. The seat itself is placed in the forward or lowest part of the saddle close to the pommel. The base of support is considered strong and secure when thighs and the weight of the seat, through flexibility and feeling, remain in complete harmony with the horse’s movements at all times.

5. The rider’s upper body is dependent upon the base of support and leg. The trunk of the body should be carried erect with the shoulders relaxed and the chest opened, taking care not to be stiff, hollow or sway-backed, nor to hunch or round the shoulders. A slight arch should support the upper back, but do not arch the lower back as this will bring the seat out of the saddle. With the rider looking straight ahead, their line of vision should be parallel to the ground, eyes and head should anticipate the line of movement. Do not allow the head to jut forward out in front of the body or look down to the side.

6. Hands and arms: Elasticity is the best description here, since rigid arms and hands will be negatively reflected elsewhere as well. The hands should be placed above and slightly in front of the withers, two or three inches apart with the thumbs just inside the vertical, keeping a straight line from the horse’s mouth to the elbow. Wrists should be straight, as bent or twisted wrists cause unnatural arm and elbow displacement, which in turn causes stiffness and a forced, irregular body position. The knuckles
should be about thirty degrees inside the vertical. The fingers should be closed around the reins. A useful hand is one strong enough for control, yet relaxed enough to allow freedom and a straight position of forearm, hand and wrist.

7. Maintaining center of balance: In order to maintain balance, the rider must coordinate their center of gravity with that of the horse. The rider's center of gravity must be directly over the horse's center of gravity to instill forward drive or restraint. For real smoothness, fluidity and invisible control, one must stay with the motion of the horse; rider and horse relating to each other. In principal, the faster a horse moves the farther forward its center of gravity shifts. The rider must then lean forward in proportion to the speed of the horse. It is this action, sometimes called "closing the hip angle" or "upper body angulation" which enables the rider to be with the motion of the horse at all times. Understanding these angles is a must to smoothness, poise and control when riding.

When the horse is standing, the center of gravity is directly in the middle and the rider sits perfectly straight. Because of the slow speed of walking and backing, the alterations in the center of gravity and the hip angulation are very slight. Sitting to the trot creates just a delicate shift forward, just a couple of degrees in front of the vertical, as does the canter. During all sitting gaits the rider should show an elegant self-carriage, yet be supple and secure in the saddle. The posting position is inclined forward with rhythm and balance and the seat brushes the saddle lightly.

The hand gallop and jumping position is referred to as the “two-point” position. The two-point contact lifts the rider's weight off the horse's back and puts it down into their legs, somewhat lightening the burden on the horse's back. For the sake of smoothness and agility this position is used in galloping, jumping, hunting, cross-country, and of course while showing a hunter.

The hand gallop is not a required gait in Hunter Seat Equitation Not to Jump, but may be used as a test either collectively or in a pattern.

As the rider begins to jump, they will assume the two-point position as they push the horse to the gallop, immediately establishing the set pace that is to be maintained throughout the entire course. As the rider approaches the first fence, they must be on a direct line to the center of the jump, eyes looking forward, legs in position and hands in control. When the horse leaves the ground on takeoff the thrust will close the hip angulation in a smooth, fluid motion and the riders hands will follow the horse’s head forward, releasing, to allow it freedom in the air. As the horse lands, the rider’s angulation increasing to the galloping position will be resumed and their eyes will continue to look forward to the next jump. Remember, an equitation rider should show accuracy to and over the jumps, smoothness over and throughout the course and must always be in total command, with horse between their hands and legs showing absolute balance and control. The rider will use either a sitting and/or two-point position as they negotiate the course.

Exhibitors are reminded to always refer to current USEF/EC Rule Books for specific rules regarding Hunter Seat position and suitability. Exhibitors are reminded to refer to the current AHA Handbook for procedures.

Exhibitors and judges should bear in mind that at all times entries are being judged on ability rather than personal attire.

1. **Protective headgear.** All riders must wear protective headgear. See GR801.2. While competing in a class, if a rider's chin strap becomes unfastened, the rider may stop, refasten the chin strap and continue his/her performance without penalty or elimination. A judge may, but is not required, to stop a rider and ask them to refasten a chin strap which has become unfastened, again without penalty to the rider. Headgear must be free from non-traditional adornment.

2. **Attire.** Riders are required to wear conservatively colored coats (black, blue, green, grey or brown) which are free from adornment which in the judge's opinion is overly distracting. Shirts must have a choker, similar collar or tie. Breeches may be buff, canary, tan, rust or white.

3. **Spurs,** crops or bats are optional but if used must be a conservative color.

4. **Inappropriate attire.** When management permits Hunter/Jumping Seat Equitation riders to ride without jackets, riders must wear traditional, short, or long-sleeved riding shirts with chokers or ties. Polo shirts and full chaps are not permitted except in unjudged warm-up classes. Management or Judge may eliminate an exhibitor who is inappropriately attired.

5. **Tack.**
   a. In Hunter Seat Equitation, snaffles, pelhams and full bridles, all with cavesson nose bands, are required. Judges may penalize, but may not eliminate, a horse or pony that competes in a snaffle, pelham or full bridle that is unconventional. Judges must eliminate a horse or pony that competes in an illegal bit or a noseband other than a cavesson. Illegal bits include, but are not limited to, two rings, three rings, gags (other than the hunter gag), et cetera. Illegal nosebands include, but are not limited to, drop, flash and figure eight nosebands.
   b. In Jumping Seat equitation, snaffles, pelhams, full bridles, gags, two ring or three ring bits are required. Judges may penalize, but may not eliminate, a horse or pony that competes in an snaffle, pelham, or full bridle that is unconventional. Judges must eliminate a horse or pony that competes in an illegal bit or noseband. Legal nosebands include leather cavesson, flash and figure eight. Illegal nosebands include but are not limited to drop nosebands.
   c. Boots and conservative colored bandages are permitted. Type of saddle is optional. Martingales are permitted in classes over obstacles and in the jumping phase.
Refer to Current USEF/EC Rules

of classes requiring both jumping and flat work. Changing of bits between phases is permissible.

6. **Stirrups** must be silver in color or non-colored stainless steel. Riders entering the ring with stirrups that do not conform will be eliminated. *(Exception: quick release safety stirrups and stirrups with jointed branches are permitted when the remaining area of the stirrup branch is silver in color or non-colored stainless steel and does not unduly obscure the judge’s view of the rider’s foot in the stirrup).*

7. **Electronic Communication Devices.**
   a. No mounted exhibitor may wear or carry an electronic communication device (i.e., cellular telephone, pager, walkie talkie, etc.) while in the competition ring. The penalty for wearing or carrying a forbidden device if observed by the judge may be elimination from the class during which the device was worn or carried.
   b. Electronic communication devices used for purposes of coaching, etc., between competitors and individuals outside the ring shall be prohibited in all classes.
   c. Exhibitors who have a chronic condition may apply for a Presidential Modification exempting them from the provisions of this rule in accordance with GR152. Riders may not use these devices in over fences classes.
   d. An exhibitor who has a chronic condition and has previously been granted at least one annual presidential modification related to the condition, may submit an application for approval of a special three-year presidential modification related to the same condition. The application must be accompanied by sufficient supporting documentation that the condition is unlikely to improve during the three-year period.

8. A rider will be eliminated for competing with a tail wrap.
1. In classes not required to jump, contestants shall enter the ring and shall proceed at least once around the ring at each gait (walk, trot, canter), and on command reverse and repeat each gait. Riders may be asked to work collectively on the rail without their stirrups. In The U.S., exhibitors to be shown at the walk, posting trot, sitting trot and canter both ways in the ring. A lengthening or shortening of stride may be called for at any gait. In Canada, the sitting trot must be called for both directions of the ring. The reverse should be executed by turning either toward the rail or away from the rail. Light contact with the horse’s mouth is required. Entries shall line up on command and all riders may be asked to execute any appropriate test included in the class requirements. Any outside assistance may be penalized at the judge’s discretion.

2. In equitation classes over obstacles, the performance begins when the horse enters the ring. Except for refusals, jumping faults of the horse are not to be considered unless it is the result of the rider's ability. Major faults to be penalized are refusals, loss of stirrups, loss of reins, or trotting while on course when not part of a test. Each contestant may circle once if desired before approaching the first jump. The rider shall then proceed around the course keeping an even pace throughout. Three cumulative refusals or fall of horse or rider WILL ELIMINATE A RIDER. If a refusal occurs in a double or triple combination, the rider shall re-jump all elements of the combination. Any or all riders may be asked to perform at a walk, trot and canter or to execute any appropriate test included in the class requirements.

3. AHA Hunter Seat Medal over obstacles classes are open to juniors who have not yet reached their 19th birthday prior to December 1st. Contestants to show over a course of not fewer than eight obstacles with fences the heights of 2’ 9” to 3’ and AHA modified hunter seat over obstacles medal class 2’ 3”. To be shown over a course of not fewer than eight obstacles of 2’ 3”. A contestant who wins first place shall receive a silver medal but is not eliminated from further competition in the AHA Medal class. Please refer to the AHA Handbook for further qualifications. Two or more tests of the top four contestants are required from the current USEF/EC Rule Books. Only one rider per horse is allowed, and to fill a class, 3 competitors with proper appointments must compete. Any of these tests may be required in a regular equitation class. For a complete list of the tests to be used in all age groups, please refer to the current USEF/EC Rule Books.

4. Exhibitors are reminded to always refer to current USEF/EC Rule Books for specific rules regarding Hunter Seat patterns and tests. Exhibitors are reminded to refer to the current AHA Handbook for procedures.
Refer to Current USEF/EC Rules

• Only tests 1-5, 8 are allowed for 13 & Under Hunter Seat Not to Jump.
• Tests 1-5, 8-9, 11-19 are allowed for 14-18, 18 & Under and 19 & Over Test 16 may only be called for at an AHA National competition.

Hunter Seat Tests From Which Judges Must Choose
Tests may be performed either collectively or individually but no other tests may be used. Instructions must be publicly announced. A judge may ask riders to re-jump an abbreviated or shortened form of the original course. NOTE: In Hunter/Jumping Seat Equitation classes, any exhibitor who does not participate in the testing is placed last of those competitors called back to test. Should more than one exhibitor fail to return for testing they will be placed at the judge’s discretion. If exhibitors are called back collectively to test, they must remain in the ring until all exhibitors have completed the test. Equitation tests must not have exhibitors trotting or cantering through in gate or out gate; any exhibitor choosing to trot or canter through the in-gate or out-gate must be eliminated (see EQ107). Obstacles jumped in an equitation test must have been included in the original course. Jumps must be jumped in the original direction unless otherwise specified.

1. Halt (4 to 6 seconds) or halt and back. When riders working collectively are asked to halt and then back, they must not be penalized if they walk forward a few steps and halt after backing.

2. Hand gallop. A hand gallop may be used on the approach to a jump.

3. Figure eight at trot, demonstrating change of diagonals. At left diagonal, rider should be sitting the saddle when left front leg is on the ground; at right diagonal, rider should be sitting the saddle when right front leg is on the ground; when circling clockwise at a trot, rider should be on left diagonal; when circling counterclockwise, rider should be on the right diagonal.

4. Figure eight at canter on correct lead, demonstrating simple change of lead. This is a change whereby the horse is brought back into a walk or trot (either is acceptable unless the judge specifies) and restarted into a canter on the opposite lead. Figures to be commenced in center of two circles so that one change of lead is shown.

5. Work collectively or individually at a walk, trot and/or canter.

6. Jump low obstacles at a trot as well as at a canter. The maximum height and spread for a trot jump is 3 feet for horses, 2 feet for ponies in classes restricted to ponies.
7. Jump obstacles on figure eight course.

8. Question(s) regarding basic horsemanship, tack and equipment and conformation.

9. Ride without stirrups, riders must be allowed option to cross stirrups.

10. Jump low obstacles at a walk as well as at a canter. The maximum height and spread for a walk jump is two feet.

12. Turn on the forehand done through the walk or the halt.

13. Figure eight at canter on correct lead demonstrating flying change of lead.

14. Execute serpentine at a trot and/or canter on correct lead demonstrating simple or flying changes of lead. (See EQ112.4 for simple change.)

15. Change leads on a line demonstrating a simple or flying change of lead. (See EQ112.4 for simple change.)

16. Change horses. (Note: this test is the equivalent of two tests.) May only be called for at AHA National competition.

17. Canter on counter lead. (Note: no more than twelve horses may counter canter at one time.) A canter on the counter lead may be used on the approach to a jump.

18. Turn on the haunches from the walk.

19. Demonstration ride of approximately one minute. Rider must advise judge beforehand what ride he plans to demonstrate.

Refer to Current USEF/EC Rules
1. In an equitation class, minor faults or errors in the horse’s performance should not be considered unless they are the fault of the rider. Much consideration should be given to the body aids used and the influence they have on the horse. General showmanship, ring position and ring etiquette should also be considered in an equitation class. In an equitation over fences class, riders should be penalized heavily for allowing the horse to refuse a jump, lose a stirrup or rein or allow the horse to trot on course when not part of a test. Riders must also be penalized for falling forward ahead of the center of gravity, allowing the leg to swing backward out of position or falling backward behind the center of gravity, especially on takeoff at a jump. Ducking to the side over a jump or looking down should also be penalized, as should the loss of consistency or timing on the approach to a jump. Three refusals anywhere on the course is elimination as is a fall of the horse or rider.

2. It is the responsibility of each judge to each exhibitor to have specific reasons in support of the opinion they have rendered in over fence classes. Keep accurate records of everything each exhibitor does during the entire performance. This will enable total recall in evaluating the round and assigning it a score. Score sheets may be posted at the judges’ discretion.

3. After recording each exhibitor’s fence-by-fence performance, taking into consideration rider’s position, rider’s influence on the horse’s performance and overall appearance, the judge should give a numerical score. A score in the 90’s would be an A score, an exhibitor who “has everything” and performed accordingly, an excellent round. A score in the 80’s would be a good round or B score. A score in the 70’s is a fair round; a score in the 60’s is a poor round and 50’s or below are very poor or “failing” rounds.

4. Knocking down marker or cone while working on the wrong side of marker or cone is a severe fault.

For classes not to jump, the rail work is to be held first and followed by the pattern. IT IS MANDATORY THAT THE RIDERS BE EXCUSED FROM THE ARENA BEFORE THE INDIVIDUAL PATTERN WORK BEGINS AT REGIONALS AND NATIONALS. For both AHA Hunter Seat Medal classes, please refer to the AHA Handbook. For tests, which the judge may choose, see the USEF/EC Rule Books. Change of horses (currently listed as Test #16) may be used at an AHA National competition.

Off course in over fences classes is cause for elimination. Off pattern in the Hunter Seat Not to Jump classes may be penalized, but is not cause for elimination. It is recommended that for Hunter Seat Not to Jump classes, they be judged 50-percent on the rail work and 50-percent on the pattern.
TABLE OF CREDITS TO BE GIVEN TO HUNTER SEAT EQUITATION RIDERS OVER FENCES

- Good Normal Fence (correct takeoff spot at jumps)
- Good Position (rider maintaining correct position throughout course and over jumps)
- Rider Making a Move to Prevent a Problem
- Good Entrance
- Good Exit
- Even Pace Throughout Course
- Good Eye (good timing or approaches to jumps)
- Good Control
- Straight Approaches to Jumps

NUMERICAL SCORING

90's — Excellent (to receive a 90 or above score the round must have everything plus a little extra and was performed accordingly)
80's — Good (above average performance, a very good, solid round with no mistakes)
70's — Fair (an average performance)
60's — Poor (below average performance)
50's — Very Poor (bad performance, bad fences, major faults)

PREDETERMINED SCORES
(for major faults)

Trotting on course
- (when a trot is not called for) 60 or lower
- Very poor trip 55 or lower
- Dangerous fence 55 or lower

Adding a stride in an
- in-and out- or combination 55 or lower
- Loss of stirrup 55 or lower
- Loss of reins 55 or lower
- 1 Refusal 45 or lower
- 2 Refusals 35 or lower
- 3 Refusals Elimination

Refer to Current USEF/EC Rules
Below is a table of faults, credits, and predetermined scores as recommended by the USEF Hunter Seat Equitation Committee for judging Hunter Seat Equitation:

**TABLE OF FAULTS IN HUNTER SEAT, EQUITATION — OVER FENCES**

The severity of the fault dictates the severity of the penalty. The greater or more dangerous the fault, the greater the Penalty.

- Long Fence (taking off too far away from the jump)
- Close Fence (taking off too close to the jump)
- Chip or Chipping in (adding a short or half stride just before jump)
- Left Stride Out (not enough strides between jumping)
- Jumping to Right Corner
- Jumping to Left Corner
