

Limited Distance Challenge

The Limited Distance Challenge offers limited distance riders a new challenge as we recognize that many individuals do not want to ride 50 miles a day, but do enjoy Limited Distance (LD) rides on consecutive days.

The care and safety of the horses is our number one priority. The Limited Distance Challenge occurs over three consecutive days.

Rules:

1. Open to all equines.
2. The rider wishing to enter the LD Challenge must fill out the official Distance Horse National Championship entry form and pay the LD Challenge fee of **\$25** before the first day's LD ride; the rider may not post enter this Challenge after the start of the first day's ride. The rider is not required to pay for all three LD rides before the first day's LD ride.
3. The rider must ride the same horse each day.
4. The rider and horse must complete all three days.
5. The pulse criteria will be **60** at each Vet Check and **60** at completion of the ride.
6. The riders must have a CRI as part of the completion veterinary examination at the end of each day.
7. As outlined below in Appendix A - Scoring, points will be awarded for:
 - A. the placings for each of the three individual days;
 - B. the CRI points for each of the three individual days; and
 - C. the placings based on the total of the Veterinary Score and Weight Factor as calculated using the AERC Best Condition system following completion of the final day's ride.
8. All LD Challenge competitors will be given a completion award.
9. Prizes will be awarded to First through Fifth rider/horse combinations.
10. First tie breaker is the rider/horse combination with the highest Veterinary Score and Weight Factor as calculated using the AERC Best Condition system following completion of the ride.
11. Second tie breaker will be the total of the AERC Best Condition scores for each day.
12. Third tie breaker will be the total Placing Points in the Top Ten for all 3 days.
13. If still tied, then the tied competitors will flip a coin.

Appendix A - LD Challenge Scoring

PLACING POINTS		CRI POINTS		VET SCORE/WEIGHT FACTOR POINTS	
PLACING	POINTS	CRI BPM increase	POINTS	PLACING	POINTS
1	22	0	5	1	22
2	20	1	4	2	20
3	17	2	3	3	17
4	15	3	2	4	15
5	12	4	0	5	12
6	10			6	10
7	9			7	9
8	8			8	8
9	7			9	7
10	6			10	6
11th and beyond	4			11th and beyond	4
